adil-linkedin

B.Tech final-year student with strong foundational knowledge in Frontend Engineering and web development, demonstrated by proactively completing independent projects and contributing to collaborative coding challenges. Passionate about building responsive and user-friendly web applications using HTML, CSS, and JavaScript. Demonstrated strong problem-solving skills and effective collaboration by developing and deploying [number] successful projects, quickly mastering new tools and technologies to achieve project goals. Seeking Internship or Full-Time opportunities as a Frontend Engineer to contribute and grow in a fast-paced engineering environment.

Work Experience

Personal Portfolio Website | Frontend Project

Jul 2025 - Present

Tech Stack: HTML, CSS, JavaScript, Render, GitHub

- Designed and developed a fully responsive personal portfolio website from scratch, effectively showcasing [number] technical skills, projects, and achievements.
- Key Contributions:
 - Architected and implemented [number] responsive UI components using HTML, CSS, and JavaScript, enhancing user experience and improving load times by [number] %.
 - Built reusable and structured frontend sections for scalability and maintainability.
 - Optimized website performance and ensured mobile responsiveness.
 - Integrated smooth navigation and modern UI/UX design principles.
 - Deployed and maintained the application using Render and GitHub.
 - Practiced version control workflows using GitHub repositories.

Spotify Clone | Frontend Project

Jul 2025 - Present

Tech Stack: HTML, CSS, JavaScript, Font-awesome, Render, GitHub

- Developed a responsive Spotify-inspired music streaming interface with a modern and interactive user experience.
- Key Contributions:
 - Built a responsive UI featuring sidebar navigation, playlists, music cards, and a sticky music player.
 - Implemented interactive controls, hover effects, progress bar, and volume controls using JavaScript.
 - Wrote clean, reusable, and well-structured frontend code while ensuring responsive design across devices.

Education

St. Martin's Engineering College (Affiliated to JNTUH)

Information Technology | Bachelor of Technology (B.Tech)

CGPA: 8.1 / 10

Sri Sandeepani Junior College

Intermediate (Class 12)

Percentage: 80%

Brilliant Grammar School

Secondary School (Class 10)
Percentage: 98%

Skills

Hard Skills

JavaScript (ES6+), HTML5, CSS3, Responsive Web Design, DOM Manipulation, UI Development, Node.js, Express.js, REST APIs, SQL, Git & GitHub, Postman, VS Code, Render, Online Code Compilers, Debugging & Problem Solving, Cross-browser Compatibility, API Integration Basics

Soft Skills

Team Collaboration, Agile Learning Mindset, Problem Solving, Quick Learning, Communication

Key Achievements

Key Achievements

- Developed a fully production-ready portfolio website utilizing HTML, CSS, and JavaScript as the core technology stack.
- Participated in a college-level hackathon and transformed unique ideas into functional proofs of concept (POCs).
- Participated in college-level IT events, including code debugging, technology quizzes, group discussions, and soft skills workshops.

Certifications

Introduction to Data Science — March 2026

Mar 2026 - Mar 2026

JavaScript Certification (Coursera) — March 2026

Mar 2026 - Mar 2026

HTML Certification (Coursera) — March 2026

Mar 2026 - Mar 2026

CSS Certification (Coursera) — March 2026

Mar 2026 - Mar 2026

Python Essentials 1 — March 2026

Mar 2026 - Mar 2026

Additional Achievements

Additional Achievements

- Developed a production-ready portfolio website independently using modern frontend technologies.
- Participated in college-level hackathons and converted innovative ideas into working Proof of Concepts (POCs).
- Participated in technical events including:
 - Code Debugging Competitions
 - Technical Quiz Events
 - Group Discussions
 - Soft Skills Activities
- Continuously learning frontend engineering concepts and modern web development practices.
